PROFESSIONAL PROFILE

Computer Engineering student at Vistula University with practical software engineering experience across web development, databases, version control and API integrations. Built a Meta API-based advertising analytics application that evaluates campaign data and produces recommendation insights. Comfortable working with development tasks, debugging, Git-based workflows and structured technical problem-solving.

PROFESSIONAL EXPERIENCE

Software Engineer Intern

09 Jun 2026 - 02 Jul 2026

Rook AI Technology | Istanbul, Türkiye

- Worked as part of the software engineering team, completing development tasks assigned through the team's workflow.
- Implemented assigned software tasks and supported ongoing development activities.
- Debugged and tested implementations, making revisions based on feedback from the engineering team.
- Used Git and GitHub for version control and collaboration during the development process.

FEATURED PROJECT

Meta Advertising Analytics & Recommendation Tool

- Developed a web application that retrieves and analyzes advertising and campaign data through the Meta API.
- Processed campaign information to surface meaningful advertising performance insights.
- Added a recommendation layer that converts analysis results into actionable suggestions for campaign improvement.

EDUCATION

Vistula University

2024 - Present

B.Sc. Computer Engineering | Warsaw, Poland

CORE COMPETENCIES

- Software Development
- Version Control
- Database Fundamentals
- Debugging & Testing
- API & Data Integration
- Technical Problem-Solving

EARLIER EXPERIENCE

Pathology Laboratory Services Technician

Medicana International Istanbul Hospital

2022

Media Coordinator

Istanbul

2015 - 2020

Healthcare / Nursing Experience

Marmara University Hospital

2019 - 2020

TECHNICAL SKILLS

Programming

JavaScript, C, C++, Python

Web

HTML, CSS

Data

SQL, MySQL

Development

Git, GitHub, Linux

Workflow

Jira

APIs

REST APIs, Meta API

ACADEMIC FOUNDATIONS

Data Structures & Algorithms
Object-Oriented Programming
Database Fundamentals
Computer Networks
Software Development Fundamentals
Programming Fundamentals

ENGINEERING PRACTICES

Task-based development
Debugging & testing
Git-based collaboration
Issue tracking with Jira
Structured problem-solving

CERTIFICATIONS

Python Programming

METU / Bilgels | 2022

Python Programming for AI

Udemy | 2019

Algorithm & Programming Logic

Udemy | 2019

CYBERSECURITY

Siber Yildiz - BTK

CTF Participant | 2019

Cybersecurity challenges focused on technical problem-solving.
